

COLLEGE OF HEALTH SCIENCES
FACULTY OF DENTISTRY
STUDENT RESEARCH EXPERIENCE QUESTIONNAIRE (SREQ)
ANALYSIS OF OPEN RESPONSE COMMENTS 2004

Introduction

The following document provides an analysis of the comments received in answer to the SREQ open response comments from postgraduate research students in the Faculty of Dentistry in 2004.

Students were asked to provide comments on the following:

- *What are the best aspects of your research higher degree experience? Please explain why these aspects are good.*
- *What aspects are most in need of improvement? Please explain why.*

Each comment received was analysed for subject content and categorised into aspects which are closely aligned with the following SREQ Scales and their characteristics:

- *Quality of Supervision*
- *Quality of Infrastructure*
- *Research Climate*
- *Generic Skills*
- *Overall satisfaction*

Comments which included more than one aspect (e.g. quality of supervision and infrastructure) were counted in all aspects mentioned.

Arrangement

1. Analysis of comments referring to the best aspects of the degree course
2. Analysis of comments referring to aspects that could be improved

Responses are ranked according to the percentage of comments received for each aspect. Due to the low number of response received (less than 20 in 2003 and 2004), and to maintain student confidentiality, no comments are provided. It is statistically invalid to convert this low number into percentages. Therefore they are expressed as raw numbers..
